

My Best Times of My Childhood

Now entering my first year in college in the US, it just feels like yesterday on my first day of school in Wei Lun. Starting in a new school and not knowing how I will get along with everyone were the thoughts I had but by the end of my first day, it turned out for the better and that lasted for many joyous years to remember.

My years in Wei Lun were the best times of my childhood that I will never forget. It was the school that believed in me and never gave up on me, as I was struggling in my studies. It gave me so many opportunities and experiences that made me realize how much I was capable of by being involved with the school. It paved me towards the right direction. The teachers and the vice principal were very supportive and that I am grateful for. Most of all, having Mr. Ho as my homeroom teacher for 3 years and having him watch me grow up with the rest of my classmates is a boxful of memorable memories that I will cherish for life.

I am grateful to be part of Wei Lun and this I hope I will have in my years in college as well as those who are now starting in Wei Lun.
